EASY DOES IT!

- Whether you were an adult driving to the grocery store or a young child jumping into the back seat to go to school, you were greeted with supple seating in the '63 Falcon Deluxe Wagon. The two-tone blue vinyl interior really complements the Glacier Blue exterior. Look at all the leg room! Try finding a "compact" wagon today with that much stretch out space!

- With over 7 feet of useable room in the back, it's no wonder why a variety of people chose the 1963 Falcon Deluxe 4-door Wagon. This "little" car had full-size station wagon room at less cost. The rear gate opened wide to accommodate luggage, school equipment, briefcases or any other necessity. The black rubber mat was handsome, yet functional.
